COMMENTS:

- needed more space
- x Sometimes over 70 people in presentations need
- x poster area crowded
- x posters out of order
- Why some undergrad students (1) on a different day from others ~~at~~ in oral presentations
- no QR codes that were correct for oral presentations
- does "submit" complete online evaluation or is "save" also needed

crowded

COMMENTS:

→ Odd + Even Poster

→ QR codes for oral worked well

but need verification that all posters got judged → especially with large numbers, and those QR codes made it hard

COMMENTS:

- 1) Room size was excellent. Technology was great w/ 2 screens + speaker screen @ back. Only negative was not having a login to the system and having to use personal pc for presentations.
- 2) Poster Issues: Some boards were too hard to push tacks into (i.e. some students using shoes to "hammer" tacks in)
 - Poster Presentations hard to navigate w/ number issues / limited spacing between posters for communication w/ faculty / peers / judges ect.
- 1 Recommendation: If we use the QR code method again, maybe even have it displayed above each poster for easy access, and lock it w/ a password only judges know to make judging easier. (Quick scan / judge / go)

- loved the judge ribbon on the name tag
- loved the list of judges that was emailed, I received it the week of the conference though so I reached out to the people on the list via email but didn't hear back from anyone so I had to find judges on site at the time of presentations.
- The judge ribbon made it easy to know who to ask though!

COMMENTS:

9. Some space was adequate, but some posters were in narrow areas (behind other posters) and were difficult to access.

10. Tech was present but not accessible. We could not get into the computers so we had someone volunteer their personal device to load all the presentations.

11. Poster #s out of order

-I do wish ~~that~~ dietary restrictions would have been taken into account for the lunch boxes. A couple folks in our group have celiac and didn't have a lunch option.

COMMENTS:

We need a small gap in time next year between the section meeting and chair meeting. It was difficult making it in and being time to check technology, etc.

I have some ideas on how to better share information after the conferences.

I'm interested in how we can get high-schoolers involved or even elementary students. I have some ideas.

COMMENTS: Posters were a little bit tricky to navigate. Once I understood the system, it was fairly easy to find specific posters. Not a lot of space to move through the crowd.

Also, the poster size should be double checked to match boards → the posters should have been in portrait orientation but directions said landscape.

COMMENTS:

- scoring system issue (paper vs electronic)
- abstract access before deadlines to gauge talk num.
- Keeping section posters together would help
